WT180MP

180A | INVERTER MULTI-PROCESS WELDER

Incorporating the latest in MIG, ARC and TIG technology, the WT180MP offers professional welding results and simple setup for all welding requirements and skill levels. The bulletproof steel chassis design ensures a lifetime of reliability and performance. Complete with 3m MB25 Binzel style MIG torch, ARC & Earth lead set and gas regulator, this unit is ready for the workshop.

- All in one machine for MIG ARC and TIG welding
- Latest inverter technology for the best results
- Bullet proof steel chassis and lightweight design
- Digital voltage and amperage meters for easy set up
- Lift TIG with optional TIG torch
- Suitable for Gas & Gasless welding - with exceptional results
- Come with 3m MB25 MIG Torch, 3m earth lead & clamp, 4m MMA Lead with twist lock electrode holder, gas regulator, gas hose & drive rollers

**OPTIONAL
TIG TORCH
AVAILABLE**

Specifications

Input Power	230V AC 50/60Hz 10A
Generator Capacity	8kva
Output Power	MIG: 40-180A ARC/TIG: 30-150A
MIG Duty Cycle	144A @ 60%
ARC/TIG	128 @ 60%
MIG Wire Size	0.6, 0.8, 0.9mm
Spool Size	D200 5kg
MMA Electrode Size	1.6 - 3.2mm
Drive Rollers	0.6/0.8mm V Groove 0.8/0.9mm Knurled
Dimensions (LxWxH)	395x165x290
Weight	9kg
Protection Class	IP21
